Dear Sir
greetings of the day

our goal is to make our india free of air pollution we have some ideas which we can make our india zero pollution due to many illegal sellings of ewaste scraps its polluting our india and only 20 percent of ewaste is getting recycled and in huge amount dumping in the lands which is toxic and hazardous and that is not good for our country and also for future generations.

and we have a companies of ewaste recyclings in bangalore and UAE

Roundcube Webmail :: Re: GOAL TO MAKE ZERO POLLUTION

please send this message to mr kejriwal because they are making better for delhi and our thoughts is they can make whole india much better our country and we need an appointment to meet mr kejriwal and discuss about this
hope so we can get a reply.

looking to serve our country

Thanks
