Subject **FACE VALUE OF LISTED SHARES ON NSE BSE**

Creative Suggestion

There are companies listed on NSE-National Stock Exchange and BSE-Bombay stock exchange with different face value of the shares of these companies. A few companies have Re. 1.00 FV a few have Rs 10.00 FV and a few more with Rs. 100 FV.

I sincerely suggest that all the shares of all companies should be made Re. 1.00 face value. This will bring at par the comparison of the market price BOOK VALUE EPS ETC of shares of all the companies easy.
